to sociability.

Shortly after leaving Mazon rain com-  
menced falling, and the prospects for a  
good time at Peoria were not flattering.  
But, as the train was not traveling at a  
very rapid rate, it was hoped that by the  
time we arrived in Peoria the rain would  
cease to fall, and in this we were not  
disappointed. After a six hours' ride,  
about one o'clock we disembarked in  
Peoria. By previous arrangement with  
the horse railway, the society had pro-  
vided a sufficient number of cars to con-  
vey the excursionists to Bluff Park. -  
Before reaching the Park, however, the  
society and all others who desired, stop-  
ped at the Universalist Church, and  
spreading the abundance of good things  
that had previously been prepared, pro-  
ceeded to do justice to themselves in a  
manner that was absolutely necessary.  
After a six hours' ride on the Midland  
road, and quite a number repaired to the  
Peoria House and did likewise.

What remanual of the time allotment  
was occupied in viewing Peoria. A  
large number procured buggies and  
drove about the city. Peoria is situated  
on the west bank of the Illinois river,  
immediately beneath a range of bluffs  
to the west. A stranger is impressed  
with the idea that Nature has done more  
to make Peoria a beautiful city than the  
enterprise of its own citizens.

The bluffs on either side of the river  
give it a picturesque appearance, and  
the rolling ground upon which the  
city is built, together with its fine  
streets, make Peoria an inviting city. -  
The bluffs to the west are occupied by  
the residences, but the general appear-  
ance of the city—we mean that due to  
the enterprise of its own citizens—does  
not compare favorably with the future  
great city of Illinois—Decatur.

At half past seven o'clock the excu-  
sionists started homeward bound. Two  
more cars had been attached, which ad-  
ded greatly to the comfort of the passen-  
gers. About one o'clock Decatur was  
reached, without a single accident.

This excursion was the largest of the  
season, more than six hundred persons  
participating, and we congratulate the  
Society, under whose auspices it was  
projected and carried out to so success-  
ful a completion. It was an entire suc-  
cess in every respect, and all seemed to  
enjoy the occasion to the highest extent.  
In a financial point of view the Society's  
most sanguine expectations were fully  
realized. Those who had charge of the  
excursion did everything that could  
have been done to make the occasion a  
pleasant and enjoyable one, and the same  
can be said of the officers of the road  
who accompanied the train. We have  
the assurance of the Committee that the  
Midland Company acted honorably and  
magnanimously with the Society in  
every particular.

It is proper to state here that the Un-  
iversalist Society at Peoria did every-  
thing possible to render the visit of the  
Decatur Society enjoyable in every re-  
spect. At the church all the necessary  
preparations had been made in the base-  
ment of their elegant office, such as  
warm water, tables, etc., for the conven-  
ience of their guests. Later in the after-  
noon the choir of the church, consisting  
of some twenty young ladies and gentle-  
men, treated their Decatur friends to  
some of Peoria's choicest music.

The Society feels more than satisfied  
with the success of their excursion, and  
we understand promise to give another  
some time during the coming fall, and  
this will afford an opportunity to those  
who failed to go yesterday.

and C. H. Flood were arrested at a late  
hour last night by Policeman Wilkin-

denizens of West Wood street. The  
officer conducted his prisoners before  
Squire Albert, where they were required  
to give a bond of \$250 each for their  
appearance before the same Justice for  
trial this afternoon at 2 o'clock. They  
gave the required bond, and were re-

Dress Linens and Linen Suits, very cheap, at S. In an instant the fire alarm was sounded, and the Hook and Ladder and Hose companies were hurrying up northward in search of the fire. When they reached the second ward school house they were met by a messenger who told them that the alarm had been caused by the explosion of a coal oil lamp, and that the flames caused thereby had been extinguished. The fireman then returned to their headquarters. Many traveling men at our hotels embraced this opportunity to notice our fire companies, and comment upon their efficiency. They were well pleased and were afterwards heard to speak in praiseworthy terms of our fire department. The compliments were well deserved. Ladies' Misses' and Boys' Suits, a large stock, always on hand, and sold very cheap, at Goldburg's. 8-4dw A Locked Wheel.—This morning as Mr. Hundley's platform dray was going about town it somewhere ran over an iron rail about ten feet long, which became entangled with the wheel, and kept winding around the axle-tree and spokes until the wheel was completely locked. The driver discovered the state of affairs when passing the corner by Jack's grocery, and after considerable prying and bucking, got the wheel liberated from its entanglement, and went on his way rejoicing. Col. Jack and Alf. Bailey rendered valuable assistance in freeing the young man and his team from their dilemma. Parrels and Fans, very cheap, at Riddell's. Goldburg's.

about one o'clock was disembarked in Florida. By previous arrangement with the horse railway, the society had provided a sufficient number of cars to convey the excursionists to Bluff Park. Before reaching the Park, however, the society and all others who desired, stopped at the Universalist Church, and spreading the abundance of good things that had previously been prepared, proceeded to do justice to themselves in a manner that was absolutely necessary, after a six hours' ride on the Midland road, and quite a number repaired to the Peoria House and did likewise. What remained of the time allotted was occupied in viewing Peoria. A large number procured buggies and drove about the city. Peoria is situated on the west bank of the Illinois river, immediately beneath a range of bluffs to the west. A stranger is impressed with the idea that Nature has done more to make Peoria a beautiful city than the enterprise of its own citizens. The bluffs on either side of the river give it a picturesque appearance, and the rolling ground upon which the city is built, together with its fine streets, make Peoria an inviting city. The bluffs to the west are occupied by fine residences, but the general appearance of the city—we mean that due to the enterprise of its own citizens—does not compare favorably with the future great city of Illinois—Decatur. At half past seven o'clock the excursionists started homeward bound. Two more cars had been attached, which added greatly to the comfort of the passengers. About one o'clock Decatur was reached, without a single accident. This excursion was the largest of the season, more than six hundred persons participating, and we congratulate the Society, under whose auspices it was projected and carried out to so successful a completion. It was an entire success in every respect, and all seemed to enjoy the occasion to the highest extent. In a financial point of view the Society's most sanguine expectations were fully realized. Those who had charge of the excursion did everything that could have been done to make the occasion a pleasant and enjoyable one, and the same can be said of the officers of the road who accompanied the train. We have the assurance of the Committee that the Midland Company acted honorably and magnanimously with the Society in every particular. It is proper to state here that the Universalist Society at Peoria did everything possible to render the visit of the Decatur Society enjoyable in every respect. At the church all the necessary preparations had been made in the basement of their elegant edifice, such as fire, warm water, tables, etc., for the convenience of their guests. Later in the afternoon the choir of the church, consisting of some twenty young ladies and gentlemen, treated their Decatur friends to some of Peoria's choicest music. The Society feels more than satisfied with the success of their excursion, and we understand promise to give another some time during the coming fall, and this will afford an opportunity to those who failed to go yesterday. You can buy a good Grenadine at S. Einstein's for ten cents per yard. 8-4dd Disturbers Arrested.—Chas. Deniker and C. H. Flood were arrested at a late hour last night by Policeman Wilkinson, for disturbing the sleep of the quiet denizens of West Wood street. The officer conducted his prisoners before Squire Albert, where they were required to give a bond of \$250 each for their appearance before the same Justice for trial this afternoon at 2 o'clock. They gave the required bond, and were released. Pineapples, Oranges, and Strawberries received fresh, at Hartley's, every day. Fair and Pound Festival.—The ladies of the Library Association will hold a grand Fair and Pound Festival at the opera house, on the evening of Thursday, June 10th, the avails of which will be used to purchase new books for the library. There will be an abundance of refreshments and a good time generally. Admission 10 cents. [4-4dd] J. P. Marsh is the champion of Decatur in the manufacture of men's fine boots. **Sociable.**—On to-morrow evening the  
ladies of the Baptist congregation are to  
hold a Sociable, with refreshments, in  
the basement of their church. There  
will be a full supply of strawberries, ice  
cream, and other things to match. A  
general invitation is extended, and a  
right pleasant time will be enjoyed.

**Masonic.**—There will be a special con-  
vocation of Mason Chapter, No. 21, R.  
A. M., to-morrow (Friday) evening, 11th  
inst., at 7 o'clock, sharp. Work in R. A.  
degree. Visiting companions in good  
standing cordially invited. By order  
A. A. MURRAY, M. E. H. P.

**For Rent.**—Large two-story brick house  
of eight rooms; large lot, plenty of fruit,  
good stable and carriage house, and other  
outbuildings, gas in each room. For rent  
at a reasonable rent to good tenant.

WARREN & DUMPER.

**The Pound Fair and Festival,** to come  
off at the opera house this evening, un-  
der the auspices of the Ladies' Library  
Association, promises to be a very agree-  
able affair. The novelty of the thing  
will attract a large crowd, and the end-  
less variety of articles sold by the  
"Pound" will furnish material for lots  
of fun. Strawberries, ice cream and  
other refreshments will be abundant,  
and everything possible will be done by  
the managers to contribute to the pleas-  
ure of those who attend. Admission is  
only 10 cents.

**Dress Suits and Linen Suits,** very  
cheap, at S. Einstein's.

**Lamp Explosion.**—Last night at  
about 9 o'clock the denizens of West  
Elkhorn street and vicinity were  
startled by hearing a whooping and  
howling, following which an excited in-  
dividual was seen lunging down Church  
street shouting vociferously, "Fire!" In  
an instant the fire alarm was sounded,  
and the Hook and Ladder and Hose  
companies were hurrying up northward  
in search of the fire. When they reach-  
ed the second ward school house they  
were met by a messenger who told  
them that the alarm had been caused by  
the explosion of a coal oil lamp, and  
that the flames caused thereby had been  
extinguished. The firemen then re-  
turned to their headquarters.

...Many travelling men at our hotels en-  
bribe this opportunity to notice our  
fire companies, and comment upon their  
efficiency. They were well pleased and  
were afterwards heard to speak in  
praiseworthy terms of our fire depart-  
ment. The compliments were well de-  
served.

**Ladies' Misses' and Boys' Suits,** a  
large stock, always on hand, and sold  
very cheap, at Goldburn's.

**A Locked Wheel.**—This morning as  
Mr. Hunsley's platform dray was going  
about town it somewhere ran over an  
iron rod about ten feet long, which be-  
came entangled with the wheel, and  
kept winding around the axle-tree and  
spokes until the wheel was completely  
locked. The driver discovered the state  
of affairs when passing the corner by  
Jack's grocery, and after considerable  
prying and bucking, got the wheel free  
from its entanglement, and went on  
his way rejoicing. Col. Jack and  
Alf. Bailey rendered valuable assistance  
in freeing the young man and his team  
from their dilemma.

**Parasols and Fans,** very cheap, at  
Goldburn's.

**City.**—The following ground upon which the  
city is built, together with its fine  
streets, make Peoria an inviting city. -  
The bluffs to the west are occupied by  
the residences, but the general appear-  
ance of the city—we mean that due to  
the enterprise of its own citizens—does  
not compare favorably with the future  
great city of Illinois—Decatur.

At half past seven o'clock the excu-  
sionists started homeward bound. Two  
more cars had been attached, which ad-  
ded greatly to the comfort of the passen-  
gers. About one o'clock Decatur was  
reached, without a single accident.

This excursion was the largest of the  
season, more than six hundred persons  
participating, and we congratulate the  
Society, under whose auspices it was  
projected and carried out to so success-  
ful a completion. It was an entire suc-  
cess in every respect, and all seemed to  
enjoy the occasion to the highest extent.  
In a financial point of view the Society's  
most sanguine expectations were fully  
realized. Those who had charge of the  
excursion did everything that could  
have been done to make the occasion a  
pleasant and enjoyable one, and the same  
can be said of the officers of the road  
who accompanied the train. We have  
the assurance of the Committee that the  
Midland Company acted honorably and  
magnanimously with the Society in  
every particular.

It is proper to state here that the Uni-  
versalist Society at Peoria did every-  
thing possible to render the visit of the  
Decatur Society enjoyable in every re-  
spect. At the church all the necessary  
preparations had been made in the base-  
ment of their elegant edifice, such as fire,  
warm water, tables, etc., for the conven-  
ience of their guests. Later in the after-  
noon the choir of the church, consisting of  
some twenty young ladies and gentle-  
men, treated their Decatur friends to  
some of Peoria's choicest music.

The Society feels more than satisfied  
with the success of their excursion, and  
we understand promise to give another  
some time during the coming fall, and  
this will afford an opportunity to those  
who failed to go yesterday.

You can buy a good Grenadine at S.  
Einstein's for ten cents per yard.

**Disturbers Arrested.**—Chas. Donikor  
and C. H. Flood were arrested at a late  
hour last night by Policeman Wilkin-  
son, for disturbing the sleep of the quiet  
denizens of West Wood street. The  
officer conducted his prisoners before  
Squire Albert, where they were required  
to give a bond of \$250 each for their  
appearance before the same Justice for  
trial this afternoon at 2 o'clock. They  
gave the required bond, and were re-  
leased.

**Pineapples, Oranges, and Strawber-**  
ries received fresh, at Hartley's, every  
day.

**Fair and Pound Festival.**—The ladies  
of the Library Association will hold a  
grand Fair and Pound Festival at the  
opera house, on the evening of Thurs-  
day, June 10th, the avails of which will  
be used to purchase new books for the  
library. There will be an abundance of  
refreshments and a good time generally.  
Admission 10 cents.

**J. P. Marsh** is the champion of Decatur  
in the manufacture of men's fire  
boots. He invariably gives a smooth  
and easy foot.

**Pike, the Jeweler,** keeps the best  
Spectacles in the city, and sells them at  
a reasonable price.

**John McMahon,** (formerly with Arm-  
strong), and the new firm may be found  
on the northwest corner of the old  
square, second story, sign of the big  
hook. They refer to customers who  
wear their boots and shoes.

**These Ladies' \$1.50 18-seg Gaiters**  
are not more than half gone, there being  
about 500 pair left.

**Correction.**—It having been reported  
that I keep a second-hand furniture  
store, I take this method of correcting  
such report. I keep nothing but the  
best goods and by selling them so low  
may have caused some to think them  
second hand. Don't be alarmed, I have  
plenty more at the same price. Great  
reduction on spring beds and mattresses.

**Excursion Tickets from Quincy to Den-**  
ver, Colorado.

seekers, and all those wishing to "Go  
West," the "Old Reliable" Hannibal and  
St. Joseph "Short Line" have placed on  
sale round trip tickets, from Quincy to  
Denver and return, good for three months  
from date of issue, at greatly reduced  
prices.

This popular Route is acknowledged by  
all to be the best equipped and best man-  
aged road west of the Mississippi River—  
running the finest "Parlor Cars" in the world  
on all express trains, and Pullman's  
Palace Drawing Room Sleeping Cars on all  
night trains.

All express trains are equipped with the  
Washington Patent Air Brake and Miller  
Patent Safety Platform and Coupler.

The track is in the best possible con-  
dition, a large portion of it having recently  
been re-laid with STEEL RAILS. Iron  
and stone bridges have taken the place of  
wood, and all other improvements con-  
ducive to the safety and comfort of its pas-  
sengers have been adopted.

Lamp Explosion.—Last night at about 9 o'clock the denizens of West Eldorado street and vicinity were startled by hearing a whooping and howling, following which an excited individual was seen lunging down Church street shouting vociferously, "Fire!" In an instant the fire alarm was sounded, and the Hook and Ladder and Hose companies were hurrying up northward in search of the fire. When they reached the second ward school house they were met by a messenger who told them that the alarm had been caused by the explosion of a coal oil lamp, and that the flames caused thereby had been extinguished. The fireman then returned to their headquarters.

Many traveling men at our hotels embraced this opportunity to notice our fire companies, and comment upon their efficiency. They were well pleased and were afterwards heard to speak in praiseworthy terms of our fire department. The compliments were well deserved.

In an instant the fire alarm was sounded, and the Hook and Ladder and Hose companies were hurrying up northward in search of the fire. When they reached the second ward school house they were met by a messenger who told them that the alarm had been caused by the explosion of a coal oil lamp, and that the flames caused thereby had been extinguished. The firemen then returned to their headquarters.</p> <p>Many travelling men at our hotels embraced this opportunity to notice our fire companies, and comment upon their efficiency. **A Locked Wheel.**—This morning as Mr. Hunsley's platform dray was going about town it somewhere ran over an iron rod about ten feet long, which became entangled with the wheel, and kept winding around the axle-tree and spokes until the wheel was completely locked. The driver discovered the state of affairs when passing the corner by Jack's grocery, and after considerable prying and backing, got the wheel liberated from its entanglement, and went on his way rejoicing.
